

WellProtek™ meets or exceeds all API industry standards

WellProtek™
API-16A LICENSED

Regulation	API-53S	API 16A	API-16AR
Description	Standard for BOP Equipment Systems for Drilling Wells	Specification for Drill-Through Equipment	Specification for Drill-Thorough Equipment Repair and Remanufacturing
Status	4th Ed. Nov'12	3rd Ed. Jun'04	Draft
Requirements	Provides requirements on the installation and testing of blowout prevention equipment systems on land and marine drilling rigs (barge, platform, bottom-supported and floating)	Specifies requirements for performance, design, materials, testing and inspection of new drill-through equipment . . . it also defines service conditions in terms of pressure, temperature and wellbore fluids for which the equipment will be designed . . . including ram blocks, packers and top seals and annular packing units	Specifies requirements for repair, remanufacturing, testing, inspection . . . of drill-through equipment . . . built under API 16A . . . including ram blocks, packers and top seals and annular packing units
Summary	HNBR BOP sealing performance at well site	Certification of manufacturing facility and product	Recertification and rating of repaired/serviced BOPs
